

PROJECT – CUCUMBERLEARNINGPROJECT JENKINS

The screenshot displays the Jenkins Dashboard interface. The top navigation bar includes the Jenkins logo, a search bar, and a user profile with the name 'Abhisek Barik' and a 'log out' button. The main content area features a sidebar on the left with links to 'New Item', 'Build History', 'Manage Jenkins', and 'My Views'. The central table lists builds for the 'CucumberLearningProject'. The table has columns for 'S' (Status), 'W' (Workspace), 'Name', 'Last Success', 'Last Failure', and 'Last Duration'. The 'CucumberLearningProject' build is shown with a status of 'Success' (green circle) and a workspace icon (sun). Below the table, there are buttons for 'Build Queue' (showing 'No builds in the queue') and 'Build Executor Status' (showing '0/2'). A context menu is open over the 'CucumberLearningProject' row, showing options: 'Changes', 'Workspace', 'Build Now', 'Configure', 'Delete Project', and 'Rename'. The bottom of the page shows a Windows taskbar with the search bar, taskbar icons, and system tray information including '28°C Mostly cloudy' and '10:56 PM 7/2/2024'.
